

COUNTING

				
How many?	How many?	How many?	How many?	How many?

CALCULATING

Add together to work out the total.

$$\begin{array}{c} \text{3 dots} \\ \text{4 dots} \\ \text{5 dots} \end{array} + \begin{array}{c} \text{4 dots} \\ \text{4 dots} \end{array} + \begin{array}{c} \text{5 dots} \\ \text{4 dots} \\ \text{4 dots} \end{array} = \square$$

$$6 + 4 = \square$$

$$\begin{array}{c} \text{5 dots} \\ \text{4 dots} \\ \text{4 dots} \end{array} + \begin{array}{c} \text{1 dot} \\ \text{2 dots} \end{array} + \begin{array}{c} \text{4 dots} \\ \text{4 dots} \end{array} = \square$$

$$3 + 7 = \square$$

$$\begin{array}{c} \text{1 dot} \\ \text{2 dots} \end{array} + \begin{array}{c} \text{2 dots} \\ \text{3 dots} \end{array} + \begin{array}{c} \text{3 dots} \\ \text{2 dots} \end{array} = \square$$

$$2 + 8 = \square$$

FINDING HALF

Can you draw a line through these items to make them into two halves?
