

COUNTING

				
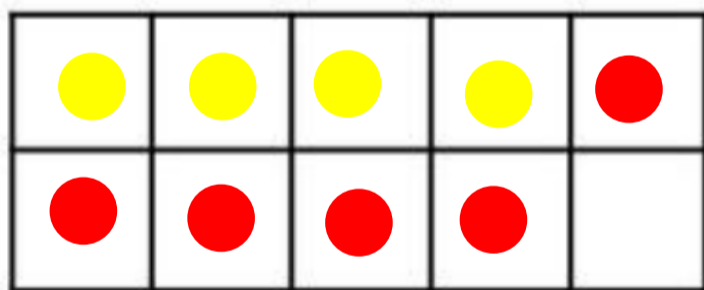

How many?	How many?	How many?	How many?	How many?

CALCULATING

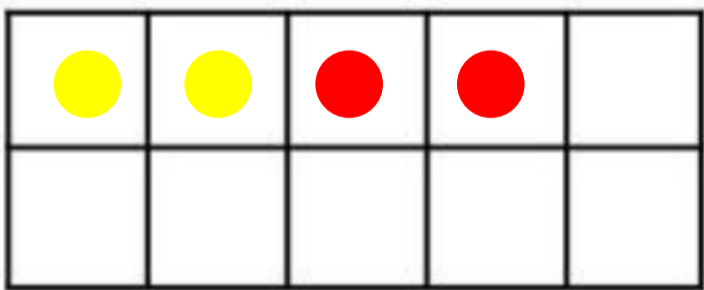

Use the tens frame to help you find the answers.

$$8 + 1 = \square$$

$$4 + \square = 9$$

$$2 + 2 = \square$$

ESTIMATION

Explain that this is an estimation game. Show each jar to your child for a few seconds encouraging them to make an estimation in the first box and then an actual count in the second box.
