#### World Oceans Day 8th June 2020

For 2020, World Oceans Day is growing the global movement to call on world leaders to protect 30% of our blue planet by 2030. This critical need is called 30x30. By safeguarding at least 30% of our ocean through a network of highly protected areas we can help ensure a healthy home for all.

**Activity 3**—Complete the attached World Oceans Day activity sheets.

**Activity 4**—Make an ocean animal craft. There are some examples at the side to use or you could be creative and come up with your own!

**Activity 5**—Pick something about the ocean that interests you and really dive in! Research online, watch documentaries to find out more. Then, spread the word! Tell your friends or family about what you've learned and why keeping our ocean healthy is so important.

**Key:**

 Follow the direction of the arrows around the village with your adult.

 What can you see at the star points? Is this a familiar place?
